The Vision

Legend has it that area settlers paddled up the Neuse River near Hasentree, getting within a stone's throw of the Falls Lake State Recreation Area. Out of the gently rolling hills and scenic views came the idea for a residential community, but not just any community – the finest private club community in the Triangle area.

Hasentree has been meticulously crafted around a spectacular Tom Fazio Championship golf course and a 13,000-square-foot Family Activity Club, providing residents with year-round, resort-style amenities.

Graced with 70-foot elevation changes on approximately 800-acres, half of which is dedicated green space, Hasentree is breathtaking. While biking, hiking, or walking throughout the community, wild turkeys, white-tailed deer, bald eagles, and hawks are often seen. Nearby, Falls Lake offers a relaxing day with rod and reel, power boating, or a leisurely canoe ride.

Audubon and Hasentree

In early June 2008, Hasentree was named a Certified Gold Audubon International Signature Sanctuary. Fewer than 21 communities have been awarded this prestigious designation nationwide, and Hasentree is one of only six in North Carolina participating in the program.

Audubon International is a not-for-profit, environmental education organization dedicated to educating, assisting, and inspiring millions of people from all walks of life to protect and sustain the land, water, wildlife, and natural resources around them. The Gold Program is Audubon International's highest level Signature Program. Participants register prior to the completion of the design of the community and work closely with Audubon International to apply sound environmental conservation and sustainable development practices while planning, designing, building, and managing a development. The Certified Gold Audubon International Signature Sanctuary designation is an esteemed honor recognizing high performance and the extensive measures taken in sustainable design and development.

The following are some of the green practices that were implemented at Hasentree that earned Hasentree the Certified Gold Audubon Signature Sanctuary designation:

- Creating building envelopes that limit the disturbance to the land
- Doubling the size of buffers along streams
- Saving and protecting as many trees as possible
- Using natural drainage systems and swales around structures to help manage storm water
- Using green products like certified wood, salvaged and reclaimed building materials, recycled carpeting or low VOC paint components
- Creating a Green Course program that educates architects, builders and homeowners about the green, sustainable building practices they can use when building in Hasentree
- One of the most significant things at Hasentree is the state-of-the-art wastewater treatment plant, which will recycle up to 50 million gallons of water each year to irrigate the golf course and other community landscaping

PUBLIC UTILITIES

Water / Sewer

Community water system with multiple wells connected throughout the community. This system is regulated by the NC Utilities Commission and operated by Aqua America, Inc. The community re-use sewer system is state of the art and is the most environmentally friendly system available today. The water eventually is redistributed to irrigate the golf course.
